ATTN: Mr GITTORI

Luxembourg, 16 September 1987

Gentlemen,

LUXEMBOURG CONSTRUCTION
SAFETY ACHIEVEMENT NOTIFICATION

This is to advise that on 11 September 1987, we have accumulated 1,000,000 man-hours of contractor/subcontractor working hours without a lost-time injury. During that time, which began 12 November 1986, approximately 100 different contractors and subcontractors employing 2400 staff and workmen on the site contributed to this record.

As your firm had a major part in this achievement, we wish to

- Extend our congratulations to you and your forces for your contribution in realizing this record

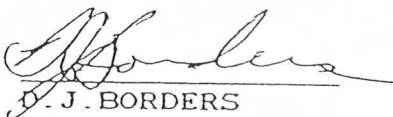

./...

- Express our appreciation for your efforts in maintaining a clean and safe working environment
- Advise that we plan to issue to all employees on the site a hard hat decal commemorating the event

Further, we remind you that employee safety remains our number one objective and that to avoid serious injury in the future your continuing commitment and attention to this aspect of your work is essential.

Again, we congratulate you in achieving this significant milestone.

Very truly yours,

D.J. BORDERS
Director of Construction
Project Engineering Division
Luxembourg
